

New Source Review newspaper advertisements for construction permit applications, July 13, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: July 11, July 12, or July 13, 2006. Public notices are generally published every two weeks. The previous publication of public notices was June 27 – 29, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Nissan North America, Inc.- Decherd Powertrain Assembly Plant with a mailing address of 983 Nissan Drive, Smyrna, TN 37167. They seek to obtain an air contaminant permit (Division identification number: 26-0091-11/60101) to modify an Engine Testing Operation located on Warren Chapel Road, Decherd, TN 37324. The proposed modification is to add an aluminum die cast operation consisting of two primary processes - die casting and chip reclaim support, each with a natural gas-fired melting furnace and numerous insignificant other activities. Particulate emissions from both melting furnaces would be controlled by a common baghouse using lime injection. There would be physical construction associated with this modification. Regulated air contaminants emitted from this source would increase. Ms. Angela Pitcock is the assigned Division person.

For the Franklin County “Herald-Chronicle”--published once on or before Thursday, July 13, 2006.

The applicant is Liquid Recovery, Inc. with a mailing address of 1190 Hancock Chapel Road, N.E., New Salisbury, IN 47161. They seek to obtain an air contaminant permit (Division identification number: 30-0192-01/60106) for construction of a Mobile Recovery Unit at 115 Terry Lenord Drive, Greenville, TN 37745. This proposed operation would consist of a portable solvent recovery operation and associated equipment used to recycle waste solvent material from Angus-Palm. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Greene County “Greeneville Sun”--published once on or before Thursday, July 13, 2006.

FIRST APPLICANT

The first applicant is A & W Ready Mix Concrete, LLC with a mailing address of 151 Kyker Ferry Rd, Kodak, TN 37764. They seek to obtain an air contaminant permit (Division identification number: 78-0197-01/60103) for construction of a Concrete Batch Plant at the intersection of Hwy 454 and Upper Middle Creek Road, Pigeon Forge, TN 37876. This proposed operation would consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. D. Martin is the assigned Division person.

SECOND APPLICANT

The second applicant is East Tennessee Natural Gas, LLC with a mailing address of P.O. Box 1642, Houston, TX 77251. They seek to obtain an air contaminant permit (Division identification number: 78-0086-01/60109) for modification of a Natural Gas Compressor Station located at 2319 McCleary Road, Sevierville, TN 37876. This existing operation consists of two natural gas-fired combustion turbines and associated equipment used to compress natural gas for pipeline transport. Natural gas is used for fuel. The requested modification is to update the source's emission limits based on currently available manufacturer information. Emissions of regulated air contaminants from this source would not increase, but the source's permitted emission limits may be higher. There would be no physical construction. Mr. T. Blake is the assigned Division person.

For the Sevier County "Mountain Press"-- published once on or before Thursday, July 13, 2006.

The applicant is Royal Mouldings, LLC with a mailing address of P.O. Box 610, Marion, VA 24354. They seek to obtain an air contaminant permit (Division identification number: 82-0297-07/60094) for construction of a Surface Coating Operation at 328 Industrial Drive, Bristol, TN 37620. This proposed operation would consist of equipment used to coat plastic moldings. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"--published once on or before Thursday, July 13, 2006.

The applicant is Liquid Recovery, Inc. with a mailing address of 1190 Hancock Chapel Road, N.E., New Salisbury, IN 47161. They seek to obtain an air contaminant permit (Division identification number: 82-0409-01/60104) for construction of a Mobile Recovery Unit at 10444 Wallace Alley Street, Kingsport, TN 37663. This proposed operation would consist of a portable solvent recovery operation and associated equipment used to recycle waste solvent material from Carta Mundi. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Sullivan County "Kingsport Times-News"--published once on or before Thursday, July 13, 2006.
